[GitHub](#) | [LinkedIn](#) | [My Website](#)

First year Computer Science (BSc) undergraduate at Queen Mary University of London with strong proficiency in Python, Java, C# and web technologies (HTML/CSS/JS). Experienced in building websites, tools and games using modern frameworks like Flask and libraries via APIs.

Projects

[Job Starter](#) – Automated Job Board Web App

- Job board using Jinja2 and Adzuna API with scheduled GitHub Actions to fetch job ads
- Frontend served with HTML/CSS/JavaScript via GitHub Pages
- Includes filtering and direct job links with Google Maps integration for proximity

Work Portal - Freelance Employer/Employee Desktop App

- Features an employer interface to manage employee records and an employee interface for uploading/viewing PDFs (e.g., CVs).
- Built with PySide6 for the GUI and MongoDB for persistent storage. Developed for Provath Kibria (provathkibria@gmail.com) – available for verification upon request.

Work Experience

Supermarket Assistant - Waitrose & Partners | May 2025 - Present

- Delivered checkout and self-checkout support to 100+ customers per shift, resolving technical and payment issues.
- Handled rapid online order dispatches (ODG) for Uber Eats/Deliveroo/Just Eat under time pressure.
- Restocked shelves, reduced product prices per policy and cleaned bakery section in line with hygiene standards.

Online Shop Volunteer - Oxfam | November 2024 - January 2025

- Presented 80+ product listings online with appealing images and details.
- Monitored pricings on numerous e-commerce platforms to optimise profit.
- Alphabetised and maintained the stockroom for quick retrieval.
