## Personal Profile

---

Second-year Computer Science student at Queen Mary, experienced in building full-stack applications, eager to contribute to technological solutions to solve problems in the real-world. Currently seeking opportunities to propel my career in software engineering.

## Education

---

**Queen Mary, University of London** | September 2024 - May 2027 (Expected)

- BSc (Hons) Computer Science
- Predicted 1st Class Honours - 74%

## Projects

---

**Job Starter** - [jobstarter.uk](https://jobstarter.uk) | [github.com/faizanA786/job-starter](https://github.com/faizanA786/job-starter)

Tech Stack: Python, GitHub Actions, Firebase, Resend API, Adzuna API, HTML/CSS/JS

- Fully automated entry-level job board with daily email alerts
- Fetches job data daily from Adzuna API using scheduled GitHub Actions.
- Email subscription and daily delivery system using Firebase (for email storage) and Resend API.

**Intern-Track** [intern-track-eight.vercel.app](https://intern-track-eight.vercel.app) | [github.com/faizanA786/intern-track](https://github.com/faizanA786/intern-track)

Tech Stack: React, Next.js, MongoDB, JWT, Upstash Redis, Vercel

- Tracks internships and placement applications as well as their status, allows grouping in folders
- Next.js backend routes for authentication and rate limiting, CRUD operations with MongoDB.
- Secured 100% of user data with JWT authentication and rate-limited backend routes.

## Work Experience

---

**Branch Assistant** - Booker Wholesale | July 2025 - October 2025

- Managed inventory and organised pallets efficiently under strict deadlines, developing strong time management skills.
- Maintained accurate inventory records and ensured proper stock rotation.
- Followed health and safety protocols to maintain a safe working environment.

**Supermarket Assistant** - Waitrose & Partners | May 2025 - June 2025

- Operated tills and self-checkouts, troubleshooting issues efficiently and improving customer service and technical problem-solving skills.
- Picked and packed 30+ online orders per shift, maintaining accuracy under pressure, demonstrating efficiency and attention to detail.

## Skills

---

**Programming Languages:** Java, C#, Python, JavaScript, GDscript

**Technologies:** Git, GitHub, React, Firebase, Flask, MySQL, JWT, Unity, Godot, HTML & CSS, Vercel, Netlify, MongoDB, NextJS,
