## Personal Profile

---

A second year Computer Science undergraduate at the Russel Group university Queen Mary, confident in communicating and solving challenging complex problems. Currently seeking opportunities to propel my career in software engineering.

## Education

---

**Queen Mary University** - BSc (Hons) Computer Science | September 2024 - May 2027 (Expected)

- Predicted 1st Class Honours - 74%
- Awarded Bronze Volunteering Hours Award

## Featured Projects

---

**Job Starter** - [jobstarter.uk](https://jobstarter.uk) | [github.com/faizanA786/job-starter](https://github.com/faizanA786/job-starter)

Tech Stack: Python, Firebase, Resend API, Adzuna API, Zoho, HTML/CSS/JS, GitHub Actions,

- Developed a fully automated entry-level job board with daily email alerts.
- Fetches job data daily from the Adzuna API using scheduled GitHub Actions.
- Email subscription and delivery system using Firebase (for email storage) and Resend API.
- Currently delivers daily new job alert emails to over 20+ subscribed users.

**Intern-Track** - [intern-track-eight.vercel.app](https://intern-track-eight.vercel.app) | [github.com/faizanA786/intern-track](https://github.com/faizanA786/intern-track)

Tech Stack: React, Next.js, MongoDB, JWT, Upstash Redis, Vercel.

- Tracks internships and placement applications as well as their status, allows grouping in folders.
- Created APIs for sending and retrieving data to the MongoDB database.
- Protected user data with JWT authentication and password hashing for accounts.
- Rate limited my API routes using Upstash Redis to prevent abuse.

**TFL-Watch** - | Work In Progress | [github.com/faizanA786/tfl-watch](https://github.com/faizanA786/tfl-watch)

Tech Stack: JavaScript, HTML/CSS, TFL Unified API, Chrome Extension APIs

- Developed a Chrome Extension that fetches predicted arrivals for tube, elizabeth and bus lines.
- Supports searching of stations and hubs, displays line destinations and predicted arrivals.
- Uses Chrome alarms and storage to periodically refresh predictions in the background.
- Handles edge cases like when API returns no data by displaying valid error messages.

## Work Experience

---

**Branch Assistant** - Booker Wholesale | July 2025 - October 2025

- Managed and organised stock and pallets efficiently under strict deadlines.
- Coordinated in meetings with my team members to prioritise urgent stock requirements.
- Supported all customer queries and ensured sensible stock rotation of food items.

**Supermarket Assistant** - Waitrose & Partners | May 2025 - June 2025

- Operated tills and supported self-checkouts, handling all customer issues and troubleshooting technical issues efficiently.
- Picked and packed 30+ online orders per shift with high accuracy.
- Communicated with my team members to manage the workload during busy periods.

## Tech Stack & Skills

---

**Programming Languages:** Java, C#, Python, JavaScript, GDscript.

**Technologies:** Git, GitHub, React, Firebase, Flask, MySQL, JWT, Unity, Godot, HTML & CSS, Vercel, Netlify, MongoDB, NextJS, JSON.

**Skills:** Debugging, Programming, Teamwork, Communication, Leadership, Problem-solving.
